Westfield Public Works Department Digital As-Built Submittal Requirements Life Cycle

The life cycle of Digital As-Built Submittal Requirements for Westfield Public Works Department (WPWD) consist of the following order:

1. TAC – Technical Advisory Committee
 - a. Engineering Firm/Developer meets with the Development Construction Department in order to receive feedback pertaining to the ordinances for Westfield and the Construction Standards.
2. Once Plans are updated per TAC and approved – Construction plans should be received digitally on a CD in State Plane Coordinates sent to WPWD which will include the following:
 - a. Required:
 - Lot Lines
 - Subdivision Section (drawn with a closed polyline)
 - Street Centerline
 - Annotation for the Street Name
 - Annotation for Lot Number
 - b. After the development is constructed the Digital As-Built Submittal Requirements take effect which are located on the website at: <http://www.westfield.in.gov/gis> and under Services click on the “Digital Submission Page.” Links are available to download the following:
